Re: Freeze Warning Notice

To All Miller's Kampark Customers:

Please note with the upcoming cold weather we have attached a Flyer pertaining to our Freeze Warning notice. This notice is very important, and it is each camper's responsibility to protect their own property and our hydrants.

If your hydrant is not properly protected from freezing conditions, we will lock out the hydrant until compliance is met.

Please see Example Below:

For simple how to steps, watch this video:

Miller's Kampark Management

FREEZE WARNING

TO PROTECT YOUR PROPERTY AND AVOID LIABILITY FOR FREEZE DAMAGE TO THE RV PARKS WATER HYDRANTS ONE OF THE FOLLOWING STEPS MUST BE TAKEN

A) FILL YOUR ON BOARD WATER STORAGE TANKS AND DISCONNECT FROM THE PRESSURIZED WATER SYSTEM **CLOSE THE HYDRANT AND REMOVE YOUR WATER HOSE. LOWER THE RED HYDRANT HANDLE, AND OPEN THE ROUND VALVE ON TEE**

OR

B) INSTALL ELECTRICAL HEAT TAPE BEGINNING AT THE ***BASE OF HYDRANT*** (AT GROUND) LEADING ALL THE WAY TO YOUR WATER INLET ON YOUR RV. **PLEASE MAKE SURE THE HEAD OF THE HYDRANT IS ALSO INSULATED.** FIBERGLASS WRAPPED IN PLASTIC OR NEOPREME INSULATION WORKS WELL. PLUG THE HEAT TAPE INTO OUR ELECTRICAL BOX AND VERIFY OPERATION.

FAILURE TO PROTECT THE PRESSURIZED WATER SYSTEM WILL RESULT TO DAMAGE TO YOUR RV WATER SUPPLY AND CREATE HYDRANT REPLACEMENT REPAIR WORK, WHICH YOU WILL BE OBLIGATED FOR.

HYDRANT REPLACEMENT WILL BE CHARGED STARTING AT \$475.00

PLEASE HELP PROTECT YOUR PROPERTY AND OURS, FOLLOW ONE OF THE ABOVE

LETTING THE WATER RUN IN YOUR CAMPER IS NOT AN ACCEPTABLE METHOD OF PREVENTION. THIS CAUSES EXCESS USE OF WATER AND IS A WASTE OF RESOURCES.
